| Category                   | Antikörper                                                                                                                                                                |
| Application                | WB                                                                                                                                                                        |
| Species Reactivity         | Human, Mouse, Rat                                                                                                                                                         |
| Immunogen                  | Peptide sequence around phosphorylation site of threonine 291 (P-R-T(p)-P-G derived from Human MEK1.                                                                      |
| Product Description        | Catalyzes the concomitant phosphorylation of a threonine and a tyrosine residue in a Thr-Glu-Tyr sequence located in MAP kinases. Activates ERK1 and ERK2 MAP kinases.... |
| Clonality                  | Polyclonal                                                                                                                                                                |
| NCBI                       | <a href="#">5604</a>                                                                                                                                                      |
| UniProt                    | <a href="#">Q02750</a>                                                                                                                                                    |
| Form                       | Purified                                                                                                                                                                  |
| Target                     | MEK1 (Phospho-Thr291)                                                                                                                                                     |

|                    |                                                    |
