| Species Reactivity         | Human                                                                                                                                                                                                                                                          |
| Immunogen                  | Recombinant fragment (around aa 247-382) of human ZAP70 protein (exact sequence is proprietary)                                                                                                                                                                |
| Product Description        | ZAP70 is a 70kDa protein tyrosine kinase found in T-cells and natural killer cells. Control of this protein translation is via the IgVH gene. ZAP70 protein is expressed in leukemic cells of approximately 25% of chronic lymphocytic leukemia (CLL) cases... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                     |
