| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Human BCL10 recombinant protein (epitope aa122-168)                                                                                                                                                                                                           |
| Product Description        | BCL10, with an N-terminal caspase recruitment domain (CARD), is found in a number of apoptotic regulatory molecules. It was identified through its direct involvement in t(1,14) of mucosa-associated lymphoid tissue (MALT) lymphoma. Expression of BCL10... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [151]                                                                                                                                                                                                                                                         |
