| Immunogen                  | Recombinant human Cdc25c.                                                                                                                                                                                                                                     |
| Product Description        | Cell division cycle(CDC25) gene product is a protein-tyrosine phosphatase, activates a partially purified p34(cdc2)/cyclin B complex. The cdc25 protein also shares homology with a protein phosphatase with activity against both tyrosine and serine(and... |
