| Alternative Catalog Number | KAB-BB4-HM541-100UG, KAB-BB4-HM541-500UG                                                                                                         |
| Manufacturer               | KactusBio                                                                                                                                        |
| Category                   | Proteine/Peptide                                                                                                                                 |
| Species Reactivity         | Human                                                                                                                                            |
| Product Description        | Recombinant Human 4-1BB/TNFRSF9 Protein is expressed from HEK293 with hFc (IgG1) tag and Avi tag at the C-Terminus. It contains Leu24-Gln186.... |
| Molecular Weight           | The protein has a predicted MW of 45.7 kDa. Due to glycosylation, the protein migrates to 60-70 kDa based on Bis-Tris PAGE result.               |
| Tag                        | C-hFc (IgG1)-Avi                                                                                                                                 |
| UniProt                    | <a href="#">Q07011</a>                                                                                                                           |
| Buffer                     | Lyophilized from 0.22µm filtered solution in PBS (pH 7.4). Normally 8% trehalose is added as protectant before lyophilization.                   |
| Expression System          | HEK293                                                                                                                                           |
| Purity                     | > 95% as determined by Bis-Tris PAGE, > 95% as determined by HPLC                                                                                |
| Form                       | Lyophilized                                                                                                                                      |
